Introduction

Proxel Industrial Controls Pvt. Ltd.

Excellence in Every Connection

Proxel Industrial Controls Pvt. Ltd. is a professionally driven industrial automation company focused on delivering dependable products and intelligent automation solutions to a wide range of industries. We specialize in supplying high-quality industrial automation components that support efficient, safe, and optimized industrial operations.

With a strong emphasis on understanding client requirements, Proxel offers customized and cost-effective solutions in industrial automation, control systems, and instrumentation. Our approach combines technical expertise, reliable products, and responsive support to ensure seamless integration and long-term performance.

At Proxel, we believe in building lasting partnerships through quality, transparency, and innovation. Our commitment to excellence enables us to consistently deliver value-driven solutions—ensuring excellence in every connection.

About Us

Proxel Industrial Controls Pvt. Ltd.

"Excellence in Every Connection"

Proxel Industrial Controls Pvt. Ltd. is a solution-oriented industrial automation company delivering reliable and efficient automation products and solutions to various industries. We specialize in high-quality industrial automation components, including sensors, PLCs, control systems, and instrumentation.

Driven by innovation and a customer-focused approach, we provide customized and cost-effective solutions that enhance productivity, safety, and operational efficiency—delivering excellence in every connection.

PROXEL
INDUSTRIAL CONTROLS PVT. LTD.

Our Products

Delta, Ebm-Papst, Sanyo Denki,Sunon, Nmb-Mat,Servo,Hicool,
Adda,Nidec,Melco,AVC, Axial Fan,Royal Fan, Ikura Fan, Kaku,
Style Fan, HXH, Suntronix , Rexnord.
IFM, Sick ,Omron, Abb, Azbil, Siemens , Allen- Bradley (Rockwell Automation), Schneider, Mitsubishi, Fuji Electric, ,Miro, Idec, Nanaboshi, IGBT, Fluke, Autonis, Keyence, Havells, Semikron, Honeywell, Telemecanique

INDUSTRIAL CONTROLS PVT. LTD.

Applications of Cooling Fans

Our cooling fans serve a wide range of industries and equipment, including:

- Control Panels & Automation Cabinets
- VFD Drives & Motor Control Centers
- PLC & Servo Cabinets
- Telecom & Server Racks
- Power Electronics & Inverters
- Industrial Machinery & Manufacturing Lines

BLOWER FANS

Applications of Limit Switches, Sensors, Relay, PCB, MCB, Etc.

PROXEL
INDUSTRIAL CONTROLS PVT. LTD.

1. Limit Switches
Used for position detection, motion control, and safety interlocking in:

- Industrial machinery & production lines
- Conveyor systems
- Elevators, hoists & cranes
- Packaging & bottling machines
- CNC machines & automation systems
- Safety door and guard position monitoring

2. Sensors (Proximity, Photoelectric, Temperature, Pressure, etc.)
Essential for automation, monitoring, and control in:

- Factory automation & robotics
- PLC-based control systems
- VFD & motor control applications
- Process industries (chemical, food, pharma)
- Packaging & material handling systems
- Automotive and assembly lines

3. Relays (Electromechanical & Solid-State)
Used for electrical switching, isolation, and protection in:

- Control panels & automation cabinets
- Motor starters & pump control systems
- Power distribution boards
- Industrial machinery control circuits
- HVAC and building automation systems
- Safety and interlocking circuits

4. PCBs (Printed Circuit Boards)
Core electronic control elements used in:

- Industrial control panels
- Power supplies & SMPS units
- Automation controllers & PLC modules
- Medical and laboratory equipment
- Consumer electronics & IoT devices
- Communication and signaling systems

5. MCBs (Miniature Circuit Breakers)
Critical for electrical protection and safety in:

- Industrial and commercial electrical panels
- Control panels & automation systems
- Residential and office installations
- Machinery power distribution
- Lighting and socket circuits
- Protection against overload and short-circuit

6. Additional Industrial Components (Etc.)
Including contactors, timers, indicators, power supplies, terminal blocks:

- Electrical & automation control panels
- VFD and MCC panels
- Solar power and renewable energy systems
- Telecom and data centers
- Infrastructure and utility projects
- OEM machinery manufacturing

Why Choose Us

- ***Superior Quality:*** *All fans are sourced from reputable manufacturers with proven performance in industrial applications.*
- ***Customized Solutions:*** *We provide tailored cooling solutions based on your panel size, heat load, and environment.*
- ***Compliance & Safety:*** *Products conform to international safety standards for industrial electronics cooling.*
- ***Technical Support:*** *Expert guidance on selection, installation, and maintenance.*
- ***Timely Delivery:*** *Reliable supply for projects, OEM orders, and regular restocking.*

PROXEL
INDUSTRIAL CONTROLS PVT. LTD.

Core Values

- ***Customer Focus***
- ***Quality First***
- ***Innovation & Efficiency***
- ***Timely Delivery***
- ***After-Sales Support***
